Greetings,

The time is coming closer for our move to Jamaica. We are busy getting everything ready there as well as here. The blueprints for the mission house are ready. The road into the building site has been built. We have a small room in the back of the existing warehouse that is being fixed up for a temporary living area if we need it. (200 sq ft.) Once the house is built we may use it for a temporary office or for guests. We have even started planting some fruit trees for the future.

As we move forward with this project, we are attempting to stretch the resources God is providing. With this in mind, we are putting together building teams to work alongside the Jamaican builders. It will also provide an opportunity for sharing Christ with the workers.

At the same time, we do not want to neglect our ministry trips to share Christ in the schools. So, for this reason we plan to have both going on. We have set dates when we can have ministry going on in the schools at the same time that the building is being done. So, if there are fathers and sons who want to work on the building projects and mothers and daughters would like to do school ministry, they can go as a family.

You have expressed an interest in going on a short-term trip. For that reason I thought I would send you the enclosed brochure, along with an application. Please let me know as soon as possible if you are interested. Applications should be sent to us in the enclosed envelope.

Please pray with us, as we go forward in this, that God will provide the workers necessary to get a great deal of the work done with volunteers. Also, pray that our house will be sold soon so that we can also begin building the mission office.

Serving our Savior,

Elaine and Don Schiffer
